ORDER

LEWIS J. LIMAN, United States District Judge:

At today's hearing on Plaintiff's application for a Temporary Restraining Order, the Court read its decision into the record. At one point, the Court stated that "Anderson also has established a risk of irreparable harm." The Court misspoke; as was clear from the context, it intended to state that "Tropic has also established a risk of irreparable harm." The Court has directed the Court Reporter to conform the transcript to replace the erroneous language "Anderson" with "Tropic."

SO ORDERED.
